

## Shop Drawing is another name of virtually visual Construction workflow

### We solved the most complex Risers shaft for the Mechanical Construction

**Project:**

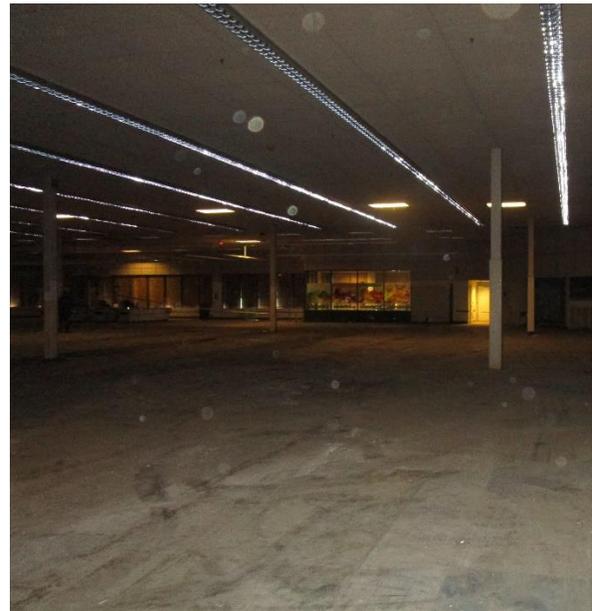

Soka Gakkai International (SGI)

**Address:**

Long Island City, New York

1. Solved the complex, tight and unfitted mechanical shaft by redesign, resizing, rearranging the ducts, pipes, cables, and conduits without compromising the actual engineering requirements and budget.
2. 3D visualization for the complex parts
3. Coordination in the floor plan with other trades
4. Took lead the Coordination meetings

Successfully completed the Shop drawing of Amazon Delivery Station

**Project:**

DBU3 Delivery Station Tenant Improvement

**Address:**

Carle Place, Long Island, New York
